31st Council
10-13 June 2020
Online
by the European Greens

Title:	**AM-36-1 to Res 1. : EUROPE IS NOT FOR SALE – For a sovereign, just and democratic Europe**
Tabled by:	EGP Committee

Demands

Insert from line 35 to 36:

must be protected from imports undermining environmental, social and labour standards. We reject deregulation and a race to the bottom.

Europe's climate, social and economic objectives require ambitious, long-term public investment in the green and just transition in all Member States. This investment is essential to transforming our economies, accelerating decarbonisation, developing sustainable industries, creating quality jobs and ensuring that the transition respects planetary boundaries and leaves no region or Member State behind. The EU fiscal framework must provide strong and consistent incentives for such investment, ensuring sufficient fiscal space while safeguarding the stability of our common currency and solidarity between Member States. Limited national escape clauses, longer adjustment periods or special treatment for individual countries are insufficient. Sustainable investment is a shared European responsibility requiring coordinated action at national and EU level.
