31st Council
10-13 June 2020
Online
by the European Greens

Title:	**AM-18-1 to Res 5.: Green Data Centres for Europe: Climate-Safe and Sovereign**
Tabled by:	Groen

Insert from line 17 to 19:

flow elsewhere. They create relatively few local jobs compared with their energy demand. Regions that are impacted the most by the expansion of data centres and the extraction of resources, like the Global South, often benefit the least from the technology. Europe needs digital infrastructure, but not at the expense of communities and ecosystems or by exacerbating water stress or grid constraints.
