31st Council
10-13 June 2020
Online
by the European Greens

Title:	**AM-30-2 to Res 5.: Green Data Centres for Europe: Climate-Safe and Sovereign**
Tabled by:	Groen

From line 30 to 33:

The EU has begun building a framework for transparency and monitoring, like in the Cloud and AI Development Act and the Energy Efficiency Directive, but reporting and non-binding commitments are not enough. ~~Missing~~They are ~~common~~no substitutes for binding minimum requirements, ~~effective monitoring~~independent verification of reported data and fair allocation of the costs of infrastructure and environmental impacts.
