Title:	**AM-68-1 to Res 5.: Green Data Centres for Europe: Climate-Safe and Sovereign**
Tabled by:	Die Grünen - Die Grüne Alternative

Demands

From line 67 to 71:

- Transparent conditions for public support, permitting and infrastructure access — tied to clean power ~~and~~, flexibility ~~-~~and European sovereignty and without preferential treatment for Big Tech or other investors, ensuring a level playing field where the greenest ~~and~~, cheapest ~~options~~and sovereignoptions win and value stays in Europe, and accountable rules for data storage and protection.

Explanation / Comment

Our amendment aims to ensure that the expansion of data centres strengthens European digital sovereignty rather than increasing our dependence on Big Tech. Public support and access to infrastructure should prioritise sustainable, competitive European solutions that keep value and control in Europe.
