Title: **Beyond Trump: Greens continue to fight for peace, democracy, fundamental rights and a rules based world order**

Tabled by: Bündnis90/Die Grünen

Resolution text

1 The re-election of Donald Trump as President of the United States on 5th
2 November 2024 is a bad day for US citizens; Europe and the world face massive
3 challenges. Unlike last time, the Republicans have won a majority of the votes
4 and are preparing for a radical restructuring of the US government apparatus and
5 a comprehensive government programme.

6 This time, with a majority in the Senate and the House of Representatives, like-
7 minded right-wing judges on the Supreme Court and Trump in the White House, it
8 will be much easier to put these plans into practice.

9 **In the face of these growing challenges, we, as Greens and pro-European forces**
10 **commit to the following actions:**

11 **1. Support Ukraine's fight for democracy and sovereignty**

12 We will continue to support Ukraine in its struggle against Russia's
13 illegal war of aggression, ensuring that Europe provides not only military
14 and financial assistance but also long-term support for Ukraine's
15 resilience, economic development, sustainable reconstruction and the rule
16 of law. Where Trump challenges security cooperation, we will continue to
17 build common security, starting with organised European military
18 procurement and defining the next steps towards the pooling of
19 capabilities by member states. The gradual pooling of capabilities by
20

21 willing Member States under the framework of the Common Security and
22 Defence Policy (CSDP) can increase military capacity with less cost and
discourage go-it-alone actions.

23 **2. Promote peace and stability in the Middle East**

24 In light of Trump's past policies that have destabilized the Middle East,
25 we will work for a balanced and constructive EU foreign policy that
26 promotes peace, supports civil society and democratic movements, and works
27 to resolve conflicts through diplomacy.

28 **3. Combat the far-right and defending democracy**

29 We will continue to oppose the rise of the far-right in Europe, which
30 benefits from and supports Trump's nationalist and authoritarian agenda.
31 We will defend democratic institutions, promote transparency, and advocate
32 for reforms that strengthen European unity and solidarity, ensuring that
33 the EU remains a beacon of hope for democracy around the world. We will
34 also work for more effective instruments to protect the rule of law at EU
35 level. For example we advocate for a stricter application of budget
36 conditionality and would like to lower the thresholds for the use of the
37 Art. 7 mechanism.

38 We make sure that no EU funds are paid to autocrats. To do this, the EU
39 Commission must use the conditionality regulation, which involves the
40 Council and the EU values conditionality, which it can trigger itself. If
41 member states do not apply EU law, the Commission must sue them and ask
42 the court to impose fines on those who do not apply rulings.

43 **4. Reject protectionism and economic nationalism**

44 We oppose Trump's protectionist policies and advocate for fair, rules-
45 based international trade. In the face of Trump's proposals we will
46 continue to work for a European industry that is resilient and much less
47 dependent on authoritarian regimes. A European industrial policy for the
48 climate-neutral transformation of the European industry is key to this.

49 **5. Lead the global fight against climate change**

50 Trump's climate denialism has delayed global progress on climate action.
51 Europe must take the lead in the fight against climate change by setting
52 ambitious carbon reduction targets, investing in green technologies, and
53 supporting a just transition for workers and communities. We will also
54 push for global agreements that address the climate crisis equitably and

55 prevent further environmental degradation.

56 **6. Defend the common good against a government takeover by the ultra-rich**

57 Trump funded his campaign by selling out the government out to Elon Musk
58 and other ultra-rich people. We fight for the many, not the few, by
59 demanding tax cooperation rather than tax competition. We invest in the
60 common goods for all Europeans and fund it with EU taxes on windfall
61 profits, the biggest polluters and a digital tax on big international
62 digital companies.

63 **7. Investing in a green, healthy and socially just future**

64 We strongly oppose a society where only the wealthy have influence and
65 power is built on division. We want Europe to be a place of equal
66 opportunities and social cohesion. Events such as the Corona pandemic, the
67 Russia's full-scale invasion in Ukraine and the resulting cost-of-living
68 crisis have created economic insecurity and increased social inequalities.
69 We will invest in affordable housing and reduce rents. We want to use the
70 money from the Emission Trading System for renovations to reduce energy
71 bills and invest in public transport to make mobility more affordable,
72 including outside cities. We want to stop billions of public money being
73 spent on fossil fuel subsidies and invest it instead in the green
74 transition. We will increase EU resources through greater tax justice to
75 work together for a healthier environment for us and future worth living
76 for our children.

77 **8. Standing up to bigotry, hate, and desinformation**

78 We reject the politics of fear, division, and hate promoted by Trump and
79 the far-right promote. We will advocate for policies that foster
80 tolerance, intercultural dialogue, women's rights, an inclusive society
81 and respect for diversity. We will continue to work for a world where the
82 right to abortion is a reality and where everyone can be who they are and
83 love who they want to. We will continue to work for a rules-based internet
84 that fights hate and disinformation, not promotes it.

85 **9. Global solidarity and resistance**

86 We will continue to build global alliances with progressive movements,
87 particularly through the Global Greens network, to resist
88 authoritarianism, support democracy, strive for social justice and promote
89 sustainability. Europe must stand in solidarity with those fighting for

90 human rights, democracy, and climate justice across the globe.

91 Trump's re-election is a call to action: The forces of authoritarianism,
92 nationalism, and climate denial are growing, but Europe has the power and
93 responsibility to lead in defense of democracy, human rights, and a sustainable
94 future. We will fight to ensure that Europe remains united, democratic, and
95 resilient in the face of these challenges, offering a hopeful alternative to
96 Trumpism and the far-right across the world.
