Draft text

Insert after line 41:

- **Calls on the Commission and member states to invest in biodiversity research, promote public engagement in wildlife monitoring, and encourage citizen science initiatives to better track and analyze changes in wildlife populations.**
- **Calls on the Commission to ensure that policies account for differences in wildlife population sizes across member states and are evidence based.**
- **Urges the Commission and member states to establish financial support mechanisms for farmers to protect their assets from damage caused by protected wildlife species and to provide timely compensation for losses incurred due to such damages.**
