

Title: **AM-1-6 to B-R7: Nature Restoration Law vs. EU plan for critical raw materials - challenges to protect nature and food sovereignty**

Tabled by: SF - Green Left

Title

Change to:

EU's plan for critical raw materials can create challenges to the protection protect of nature and food sovereignty

Draft text

Delete from line 1 to 7:

~~The European Greens have been spearheading policies to respond to climate challenges while putting people and the planet at the top of its priorities. In the European Parliament, at both national and local levels, EGP members have been proposing measures to mitigate such impacts and to politically address changes in production, distribution and consumption models to achieve more balanced ways of using essential resources, ensuring less impact on nature and human health.~~

Explanation / Comment

Suggest deletion and revised title. The resolution should address the specific concerns related to mining - and not restate the whole purpose of the nature restoration law.
