

Title: **AM-13-1 to B-R7: Nature Restoration Law vs. EU plan for critical raw materials - challenges to protect nature and food sovereignty**

Tabled by: SF - Green Left

Draft text

Insert from line 12 to 13:

toxic-free consumer goods while significantly reducing the risk of contamination from pollutants and chemical contaminants and tackling climate challenges.

[The EU's demand for critical raw materials, combined with the demand to develop resource independency, increases pressure on nature, undermining the intentions of the Nature Restoration Law. Examples hereof are Lithium mining projects in Portugal and Serbia.](#)

Explanation / Comment

An attempt to make the resolution more targeted.
