

Title: **AM-57-1 to B-R7: Nature Restoration Law vs. EU plan for critical raw materials - challenges to protect nature and food sovereignty**

Tabled by: Federation of Young European Greens

Draft text

From line 56 to 63:

landscape, the identity of rural regions, on food production and the economic sustainability of communities. Lithium extraction - the aim of which is ~~for use~~to be used in decarbonization solutions - ~~is absolutely incompatible with~~can not be done in regions which are suffering from severe drought, water scarcity and devastating forest fires, such as Portugal. Therefore, this option is not a long term solution to climate change ~~in these territories~~. On the contrary, it is a problem and will soon become a huge burden for future generations; due to ~~the~~ the environmental liabilities it will leave behind.
