

Title: **AM-95-2 to B-R7: Nature Restoration Law vs. EU plan for critical raw materials - challenges to protect nature and food sovereignty**

Tabled by: GroenLinks

Draft text

From line 94 to 95:

- respecting integrity, livelihoods and the cultural heritage of rural regions;
- European support for value addition, such as battery production, in the mining region or country, provided lithium extraction can be carried out responsibly according to the above criteria.

Explanation / Comment

Not only protection to environmental and social damage, but also improvement of livelihood possibilities
