Draft text

1 The European Green Party (EGP) and its member parties are gravely concerned by
2 the ongoing developments in the Middle East as an escalation regarding the
3 situation in Palestine and Israel, that were already discussed in the resolution
4 “The European Greens Stand for a Lasting End to Violence in Israel and
5 Palestine” adopted in the EGP Congress of December 2023. Since the adoption of
6 this position, our concern has increased in the light of the flagrant disregard
7 of the ultranationalist far-right Israeli Government for the ICJ's ruling that
8 Israel must halt its military operations in Rafah and Gaza on the grounds that
9 such actions could lead to conditions conducive to genocide. In addition to
10 this, the escalation of tension in the region has increased and expanded to
11 neighbouring countries. We condemn the attacks of the terrorist group Hezbollah
12 against Israeli civilians in the north of the country, as well as the
13 interference of the Iranian regime that supports this group and their attack in
14 central and Southern Israel. The operations implemented by the IDF in Lebanon
15 that killed civilians, UN staff and medical workers constitute a
16 disproportionate retaliation and are not aligned with international law. The
17 Israeli attacks against the UN peacekeepers are also yet another turning point
18 that should concern all international community and demand swift and clear
19 action to put an end to the violence and work for a peaceful, lasting and fair
20 resolution of the ongoing conflicts.

21 As European Greens we are united in diversity, and without reservation we

22 consider it essential to take action to stop the crimes that we condemn with
23 this resolution. In line with different views across Europe, some Member Parties
24 of the EGP consider that the Palestinian people is being victim of genocide, and
25 others consider that this statement needs to be ruled by an international court.
26 This diversity does not prevent us from standing united to condemn all crimes
27 and to call for a fair, just and lasting solution that includes the respect for
28 the self-determination of the Palestinian and Jewish peoples and bring about
29 peace and prosperity in the region.

30 This resolution is borne out of the recognition that the European Union (EU) and
31 the governments of EU member states and other European countries bear a
32 historical responsibility to do everything in their power to stop any genocidal
33 developments in the world and to help work towards peace.

34 In light of the ongoing crisis in the Middle East, the European Green Party,
35 through this resolution, adopts the following action-items and calls on the
36 European Union, European nations, the U.S., international institutions, and the
37 international community at large to take decisive, immediate actions to address
38 the ongoing human rights violations and support the cessation of hostilities,
39 including the following:

40 **1. Immediate Ceasefire and Protection of Civilians**

- 41 ◦ Demand an immediate end to the siege on Gaza and a permanent
42 ceasefire across the Occupied Palestinian Territories (OPT), Israel,
43 Lebanon, and the Golan Heights, and protect civilians from
44 indiscriminate violence by any party.
- 45 ◦ Secure the release of hostages held by Hamas;
- 46 ◦ Demand an immediate end to the [arbitrary detention](#) of all persons,

105 the physical destruction of the Palestinian population in the OPT
