

**Title:** **AM-85-1 to B-R6: Transitioning to sustainable and resilient farming systems in Europe**

**Tabled by:** PROGRESÍVIE

**Draft text**

**Insert from line 84 to 85:**

not, for instance, support the continued production of water-intensive crops in water-stressed areas. **The Common Agricultural Policy (CAP) must prioritize sustainable farming practices and ensure its tools are designed to maintain the number of small and medium-sized farms, promoting generational renewal and rural vitality.**
