

Title: **AM-121-1 to B-R6: Transitioning to sustainable and resilient farming systems in Europe**

Tabled by: PROGRESÍVIE

Draft text

Insert from line 120 to 121:

legislation and objectives concerning nature restoration, water resilience, climate change adaptation, soil health, pesticides and unfair trading practices. **Act responsibly towards other countries prohibiting European companies to export pesticides that are banned within the EU, ensuring that such chemicals do not harm populations in third countries, and banning imports from third countries of food products containing pesticide residues that are prohibited in the EU, ensuring consistency in health and safety standards.**
