

Title: **AM-131-2 to B-R6: Transitioning to sustainable and resilient farming systems in Europe**

Tabled by: PROGRESÍVIE

Draft text

Insert after line 131:

Significantly increase protection of bystanders and nature from pesticide harm by implementing measures to better protect farmers and bystanders from the harmful effects of pesticide exposure, including stricter regulations and monitoring, and introducing an EU-wide tax on pesticide use to fund environmental and human health monitoring, as well as compensation mechanisms for harm caused to bystanders.
