

Title: **AM-2-1 to B-R6: Transitioning to sustainable and resilient farming systems in Europe**

Tabled by: Groen

Draft text

From line 1 to 8:

European farmers are under increasing pressure. Climate change, loss of biodiversity, input dependencies, generational renewal and low profitability constitute critical growing threats to farmers and European food production. Decades of ecologically and economically unsustainable agricultural policy in the EU have ~~not only~~ failed to build resilience to shocks ~~but have also~~ exacerbated the threats from ecosystem degradation and failed to address the decline in farmers' economic resilience, ~~resulting from~~ Farmers income is under threat due to high input dependencies and large power asymmetries in food value chains.

Explanation / Comment

First amendment: generational renewal is a severe challenge for farmers in Europe
Amendments in the second part of the paragraph: readability and argumentation improvements
