

Title: **AM-125-1 to B-R6: Transitioning to sustainable and resilient farming systems in Europe**

Tabled by: Groen

Draft text

Insert from line 124 to 125:

consumption. Investigate economic incentives for reduced meat consumption at an EU-level. Invest in value chain development for alternative proteins, promote plant-based dairy in the EU school scheme and develop an EU plant based action plan with concrete goals and actions to strengthen the protein transition in all aspects of our food system

Explanation / Comment

We believe describing the a shift to alternative sources of protein is an important addition to the paragraph.
