Draft text

From line 123 to 129:

- Condemn the acts and enabling of ~~corporate~~ media incorporations that contribute to perpetuating and encouraging racial and sexual abuse against racialised and ethnic-minoritised communities particulary through the dehumanisation and demonisation of such minoritised communities and individuals therefrom. We are committed to freedom of the press as a fundamental democratic principle, but emphasise that this freedom has its limits where discrimination and incitement against ethnic-minoritised communities is promoted. We advocate ~~for~~ for the European wide establishment of ~~European-wide obligations and~~ standards ~~on media companies~~ regarding ~~non-discriminatory, equitable, and correct representations~~ the representation of minoritised communities.
