

**Title:** AM-123-2 to B-R4: “United in diversity”, but for real this time

**Tabled by:** Bündnis90/Die Grünen

**Draft text**

**From line 123 to 129:**

- ~~Condemn the acts and enabling of corporate media in perpetuating and encouraging racial and sexual abuse against racialised and ethnic-minoritised communities~~ through the dehumanisation and demonisation of such minoritised communities and individuals therefrom. We advocate for the establishment of European-wide obligations and standards on media companies regarding non-discriminatory, equitable, and correct representations of minoritised communities.
- We reject the actions and enabling of media corporations that contribute to the perpetuation of racism and sexual abuse against racialised and ethnic minorities, particularly through the dehumanisation and demonisation of minorities and individuals from these communities. We are committed to freedom of the press as a fundamental democratic principle, but emphasise that this freedom has its limits where discrimination and incitement against minorities is promoted.
