

**Title:** **AM-70-1 to R4: European Digital Democracy:  
Sovereignty, Rights and Online Safety**

**Tabled by:** Federation of Young European Greens

### **Demands**

**Insert from line 69 to 71:**

**3. Regulate the concentration of computing power in private hands and ensure large AI systems are monitored and equipped with transparent operations, human-understandable outputs, and manual kill-switches.**

3.. Safe and democratic digital environments must become the norm, by switching off recommender systems by default, banning behavioural profiling of minors, and

### **Explanation / Comment**

Concentrated control of extreme computational resources risks creating unaccountable private actors with disproportionate influence over society.
