

**Title:** AM-27-1 to R4: European Digital Democracy:  
Sovereignty, Rights and Online Safety

**Tabled by:** Bündnis90/Die Grünen

**Delete from line 27 to 34:**

~~Children and young people are particularly exposed: European teenagers spend an average of 3 hours per day on social media (EU Kids Online 2022), where addictive feeds increase risks of scams, explicit and violent content and disinformation. Current recommender systems based on behavioural analysis make the problem even worse. According to a 2023 Amnesty International report, after only a few hours on TikTok, test accounts created as teenagers were quickly shown harmful content — within 3 to 20 minutes, more than half of the recommended videos were about self-harm, depression, or suicide.~~
