

Title: **AM-70-3 to R4: European Digital Democracy:
Sovereignty, Rights and Online Safety**

Tabled by: Bündnis90/Die Grünen

Demands

Insert from line 69 to 72:

3.[Space]Safe and democratic digital environments must become the norm, by switching off recommender systems by default, banning behavioural profiling of minors, and enforcing algorithmic transparency to safeguard pluralism.

4. The European Commission must fully utilise the powers granted by the Digital Services Act to require changes to platform algorithms whenever systemic risks to public discourse, elections, or media and opinion pluralism are identified.
