

Title: **AM-18-1 to R1: Freedom to Live Better: Building a Green and Social Europe**

Tabled by: SF - Green Left

Insert from line 17 to 18:

This attack started on the extremes but is taking hold of the political forces leading the EU:

Key elements of the new green deal are under attack – including the ETS 2 start-up, key regulation within ESG and CBAM.

The acceptance of far right pressure and autocratic leaders threaten social rights and democratic principles

The EU caves in to direct political pressure by the US, thus undermining international treaties like the failed IMO agreement, as well as EU regulation protecting climate and nature.

Explanation / Comment

Suggest to replace the subsequent bullits by this, in order focus on **what** goes on - rather than **who** caves in. Especially when we want to reach out to the same forces later in the resolution.
