

Title: **AM-41-1 to R1: Freedom to Live Better: Building a Green and Social Europe**

Tabled by: Die Grünen - Die Grüne Alternative

Insert from line 40 to 41:

We need to make the European Green Deal the basis for our future shared prosperity, not roll back our environmental and social commitments. We are committed to keeping our European industry in Europe and supporting it through the green transition. We also call for strengthening the ‘Buy European’ approach to increase our strategic autonomy and secure shorter, more sustainable supply chains.”

Explanation / Comment

We want this change because we need to preserve European industry and the jobs it provides, because European production is cleaner than in many other parts of the world, and because only a strong domestic industrial base can ensure that Europe remains — or becomes — independent in matters of security and the economy.
