- spreadsheet amendments **28 November** <u>Freedom to Live Better: Building a Green and Social Europe</u>
- overview tabled amendments 20 November <u>Freedom to Live Better: Building a Green and Social Europe</u>
- A warm home in a safe community.
- A diverse society where everyone's rights are respected.
- An EU united for international law and global coalitions on climate, health and
- 4 nature.
- 5 A caring society that finds solutions to everyday problems.

This is where the EU can and should be going. 6 Yet when people wake up, they see a world out of control. One day, President 7 Trump imposes tariffs on long-standing allies. The next, wildfires rip through 8 homes, and disinformation poisons politics. This stream of crises is not random. It is the most serious ideological 10 challenge the EU has faced. The MAGA White House, Europe's far-right radicals, 11 and Putin's blood-soaked regime share an agenda: to undermine everything the 12 European project stands for. 13 The EU is a political community built on human dignity, freedom, democracy, the 14 rule of law, and respect for human rights. Globally, it stands up to the Big 15 Tech and fossil fuel lobbies. This is why today it is under attack. 16 This attack started on the extremes but is taking hold of the political forces 17 leading the EU: 18 • The European People's Party is doing the far right's dirty work by 19 undermining climate protection, social rights and democratic principles 20 • Even some allies are giving up on the Green Deal, compromising our future 21 22 for short-term gain The European Commission is abandoning green and social progress with 23 short-sighted deregulation, leaving much of society and the business 24 community behind 25 We face a critical choice. Pursue the far-right's destructive, anti-European 26 agenda or fight for a free Europe. 27 What does a free Europe mean? A Europe that focuses on real and fair solutions 28 to the shared problems making our lives insecure. Because we are strongest when 29 30 we stand in solidarity, as in the pandemic and the energy crisis.

It means freedom from expensive imported energy and unaffordable rents. It means

freedom from distorted elections and hybrid threats. Most simply, it means the

31

32

freedom to live in a community where everyone looks out for each other.

The Time Is Now

34

- This is why we are fighting for the next step in European integration. The time
- for excuses and half-measures is over. Europe cannot wait.
- We call on all pro-European forces to work together and take responsibility. We
- need investment to reduce the cost of living and protect our climate. We need to
- safeguard shrinking democratic space and act with unity in an insecure world.
- We need to make the European Green Deal the basis for our future shared
- prosperity, not roll back our environmental and social commitments.
- We need massive investment in the just transition: that means an ambitious next
- EU budget, joint borrowing and reformed fiscal rules.
- We need a reformed EU that takes democratic decisions without being held back by
- 45 national vetoes.

Demands

49

50

51

54

- As European Greens, we are calling for a Green and Social Europe to:
- Lead climate action with 90-95% net emissions reduction by 2040 and
 climate neutrality by 2050
 - Build a fully circular economy: the clean tech revolution can reindustrialize Europe, create well-paying jobs, and drive innovation
 - Ensure clean air, food, and water free from toxic pollutants
- Guarantee access to quality public goods: from renewable energy to affordable and sustainable housing
 - Guarantee decent employment, fair wages and workers' rights and make the ultra-rich, multinationals and polluters pay their fair share

56 57	 Invest in resilience to protect people, nature, and infrastructure from extreme weather
58	We are calling for a democratic Europe that:
59 60	Upholds the protection from online hate, disinformation and manipulation that civil society fought for by enforcing European law
61 62	 Invests in education, free and independent media, and European digital infrastructure
63 64	 Stands in solidarity with protest movements and NGOs and protects civic space and the right to freedom of speech, assembly and expression
65 66	 Offer accession countries a future as they stand up against authoritarianism
67	We are calling for a global Europe that:
68 69 70	 Stands for peace and justice in the Middle East and recognises the state of Palestine to secure a two-state solution guaranteeing the rights and security of both peoples
71	Accounts for war crimes and the genocide against the Palestinian people
72 73	 Continues to stand in solidarity with Ukraine against Russia's illegal war of aggression
74 75	Supports Ukraine's struggle as a defence of freedom, peace and European security and its future in the EU
76 77	Deepens security and resilience cooperation on capabilities, synergies and enhanced crisis preparedness, grounded in a human security approach
78 79	 Defends a migration policy based on fundamental rights and solidarity so European countries remain havens for those fleeing war and persecution

• Promotes multilateralism, green industry, fair transition and

80

- environmental stewardship, particularly in Africa, Asia and Latin America, while preventing exploitation and resource plundering
- We are ready to create this momentum. This is the Free Green Europe we are fighting for.
