

Title: AM-24-1 to R2: Green solutions for more crisis-

prepared, resilient and safer societies

Tabled by: Federation of Young European Greens

Insert from line 23 to 24:

investing in local services and their resilience, and building the necessary infrastructure capable of withstanding various shocks. <u>This includes nature-based resilience</u> measures that also strengthen territorial defence, such as wetland restoration, erosion prevention and biodiversity recovery.

Explanation / Comment

Future generations need nature to be resilient and able to recover after conflict. Therefore, we as Greens should prioritize and explicitly incorporate nature based solutions in our resilience measures.
