

Title: **AM-48-1 to R2: Green solutions for more crisis-prepared, resilient and safer societies**

Tabled by: Federation of Young European Greens

Demands

Insert from line 47 to 49:

5. resilience, including emergency response, healthcare and social services to ensure availability also in crises. **Our civil-defence funding must be reinforced through funding, including public shelters, emergency training, and crisis communication systems throughout the EU.** The EU should coordinate European supply algorithms, common procurement and coordinated stockpiling while

Explanation / Comment

Besides a top down, we also need a bottom up approach to resilience. Civil-defence measures are vital to ensure safety for all.
