

Title: AM-48-1 to R2: Green solutions for more crisis-

prepared, resilient and safer societies

**Tabled by:** Federation of Young European Greens

## **Demands**

## Insert from line 47 to 49:

5. resilience, including emergency response, healthcare and social services to ensure availability also in crises. <u>Our civil-defence funding must be reinforced</u> <u>through funding, including public shelters, emergency training, and crisis</u> <u>communication systems throughout the EU.</u> The EU should coordinate European supply algorithms, common procurement and coordinated stockpiling while

## **Explanation / Comment**

Besides a top down, we also need a bottom up approach to resilience. Civil-defence measures are vital to ensure safety for all.
