

Title: **AM-50-1 to R2: Green solutions for more crisis-prepared, resilient and safer societies**

Tabled by: Federation of Young European Greens

Demands

From line 50 to 54:

6. Supports the creation of a European common defence force through harmonised defence budgets and shared capabilities, explicitly invoking Article 42(7) TEU as the legal basis for mutual defence.

~~6. Highlights the need for nature-based solutions to prevent and mitigate threats. For example, nature-based solutions can help prevent flooding and erosion, rebuilding biodiversity helps promote healthier environments, and restoring wetlands can act as barriers for defence purposes.~~

7. Highlights the need for nature-based solutions to prevent and mitigate threats. For example, nature-based solutions can help prevent flooding and erosion, rebuilding biodiversity helps promote healthier environments, and restoring wetlands can act as barriers for defence purposes.

Explanation / Comment

We need this approach as it enhances European security and defense by pooling resources and capabilities, creating a stronger, more cohesive, and efficient response to threats, and building on the mutual defense obligations already

established in Article 42(7) of the Treaty on European Union (TEU).
