

Title: AM-63-1 to R2: Green solutions for more crisis-

prepared, resilient and safer societies

Tabled by: Federation of Young European Greens

Demands

Insert from line 62 to 63:

 infrastructure to defend our democratic institutions from manipulation and cyber threats without compromising civil rights. <u>This includes building a sovereign</u> <u>European tech industry and ensuring key data remain stored within EU</u> <u>territory.</u>

Explanation / Comment

Again, in times where partners such as the United States are proving to be unreliant, it is key Europe can count on its own industry and data storage.
