Title:	**AM-63-1 to R2: Green solutions for more crisis-prepared, resilient and safer societies**
Tabled by:	Federation of Young European Greens

Demands

Insert from line 62 to 63:

8. infrastructure to defend our democratic institutions from manipulation and cyber threats without compromising civil rights.**This includes building a sovereign European tech industry and ensuring key data remain stored within EU territory.**

Explanation / Comment

Again, in times where partners such as the United States are proving to be unreliant, it is key Europe can count on its own industry and data storage.
