

**Title:** **AM-41-1 to R2: Green solutions for more crisis-prepared, resilient and safer societies**

**Tabled by:** Groen

### **Demands**

#### **Insert from line 40 to 42:**

4. shocks and develop early warning systems. We must guarantee access to water, food, electricity, heat and other basic supplies during crises. Governments must ensure necessary reserves to guarantee the supplies in

### **Explanation / Comment**

Food is also a basic necessity and infrastructure is needed to be able to pre-position and distribute them whenever and wherever necessary.
