

Title: AM-41-1 to R2: Green solutions for more crisis-

prepared, resilient and safer societies

Tabled by: Groen

## **Demands**

## Insert from line 40 to 42:

4. shocks and develop early warning systems. We must guarantee access to water, <u>food</u>, electricity, heat and other basic supplies during crises. Governments must ensure necessary reserves to guarantee the supplies in

## **Explanation / Comment**

Food is also a basic necessity and infrastructure is needed to be able to pre-position and distribute them whenever and wherever necessary.
