

Title: AM-48-2 to R2: Green solutions for more crisis-prepared, resilient and safer societies

Tabled by: Bündnis90/Die Grünen

Demands

From line 47 to 50:

5. resilience, including emergency response, healthcare and social services to ensure availability also in crises situations. The EU should coordinate European supply algorithms, common procurement and coordinated stockpiling while also facilitating cooperation ~~through programmes such as RescEU~~. Designated funding like RescEU and the Interreg programme should enable regions and communities to cooperate transnationally and build shared infrastructure.

Explanation / Comment

Adapted wording. BTW: What are "supply algorithms"?

As the funding structure will be changing with the next MFF, it's better just to demand funding than to refer to a specific programme.
