

Title: AM-51-1 to R5: No more victims: stop femicide in Europe

Tabled by: Federation of Young European Greens

Demands

In line 51:

- safety measures to create inclusive, safe, and accessible public spaces for women and girls ~~on the streets~~ through community-based prevention, urban planning, and ~~in public places~~ social infrastructure, without relying on police state measures.

Explanation / Comment

Because preventing femicide requires making public spaces safer and more accessible for women and girls. Community-based prevention, inclusive urban design, and strong social infrastructure reduce the conditions that enable gender-based violence, without relying on policing that often fails to protect those most at risk.
