From line 8 to 9: Trump imposes tariffs on long-standing allies. The next, wildfires rip through homes, and while disinformation - <u>now one of the most serious threats to European democracy, social trust and security - spreads rapidly and</u> poisons politics.

Insert from line 12 to 13: and Putin's blood-soaked regime share an agenda: to undermine everything the European project stands for. <u>Our own divisions and the fragmentation of our common market leave our businesses more and more behind in the race for future sustainable industries and businesses.</u>	
12	AM-16-1	Miljöpartiet de gröna	Tech and fossil fuel lobbies. This is why today it is under attack.	Delete in line 16: Tech and fossil fuel lobbies. This is why today it is under attack.	

13	AM 17-2	Miljöpartiet de gröna	This attack started on the extremes but is taking hold of the political forces leading the EU:	<p>Insert from line 17 to 18:</p> <p>Currently, however, authoritarian forces are This attack started on the extremes but is taking hold of the political forces leading the EU:</p>	
14	AM-18-1	SF - Green Left	This attack started on the extremes but is taking hold of the political forces leading the EU:	<p>Insert from line 17 to 18:</p> <p>This attack started on the extremes but is taking hold of the political forces leading the EU:</p> <p><u>Key elements of the new green deal are under attack – including the ETS 2 start-up, key regulation within ESG and CBAM.</u></p> <p><u>The acceptance of far right pressure and autocratic leaders threaten social rights and democratic principles</u></p> <p><u>The EU caves in to direct political pressure by the US, thus undermining international treaties like the failed IMO agreement, as well as EU regulation protecting climate and nature.</u></p>	Suggest to replace the subsequent bullets by this, in order focus on what goes on - rather than who caves in. Especially when we want to reach out to the same forces later in the resolution.
15	AM-19-1	SF - Green Left	The European People's Party is doing the far right's dirty work by undermining climate protection, social rights and democratic principles	<p>Delete from line 19 to 20:</p> <p>The European People's Party is doing the far right's dirty work by undermining climate protection, social rights and democratic principles</p>	All 3 bullets replaced in previous amendment

16	AM-20-1	Ecolo	The European People's Party is doing the far right's dirty work by undermining climate protection, social rights and democratic principles	Insert from line 19 to 20: The European People's Party is doing the far right's dirty work by undermining climate protection, social rights justice, rule of law and democratic principles. The constant lies and democracy denial at both national and European level play a massive role in citizens' distrust towards the democratic institutions.	In some cases, at both European and National level, political parties including the EPP ones are undermining the role of the justice system and attack judges directly for simply doing their job whenever a government or a parliament member abuse the system or break the law. (including when the situation of a far-right representative is on the line). Moreover, the strategic use of lies as well as denying some basic democratic principles to citizens are record-breaking high.
17	AM-21-1	SF - Green Left	Even some allies are giving up on the Green Deal, compromising our future for short-term gain	Delete from line 21 to 22: Even some allies are giving up on the Green Deal, compromising our future for short-term gain	All 3 bullets replaced in previous amendment

We regret that the EU did not manage to bring forward a clear or ambitious proposal for a 2035 emissions reduction target at COP 30 [text to be updated in line with COP 30 outcomes].	

20	AM-23-1	SF - Green Left	The European Commission is abandoning green and social progress with short-sighted deregulation, leaving much of society and the business community behind	Delete from line 23 to 25: The European Commission is abandoning green and social progress with short-sighted deregulation, leaving much of society and the business community behind	All 3 bullets replaced in previous amendment
21	AM-25-1	EGP Committee	community behind	Insert after line 25: This dangerous game led to an unprecedented low point. With the vote on weakening the corporate sustainable due diligence legislation, the EPP inexcusably broke the cordon sanitaire, counting on a majority with the extreme right to pressure and blackmail the pro-European, democratic groups into following the EPP line instead of negotiating a compromise. This calculated decision marks a dangerous turning point bringing chaos and instability at a time when the EU needs to act in unity.	
22	AM-27-1	PROGRESIVE	We face a critical choice. Pursue the far-right's destructive, anti-European agenda or fight for a free Europe.	Insert from line 26 to 27: We face a critical choice. Pursue the far-right's destructive, anti-European agenda or fight for a free Europe. A free and united Europe must also recognise that defending itself requires strengthening security and resilience across the Union. Security and defence are shared responsibilities of all citizens and all Member States.	

23	AM-28-1	Miljöpartiet de gröna	<p>What does a free Europe mean? A Europe that focuses on real and fair solutions to the shared problems making our lives insecure. A Europe that focuses on real and fair solutions to the shared problems making our lives insecure. <u>A Europe that invests together in a competitive green economy.</u> Because we are strongest when we stand in solidarity, as in the pandemic and the energy crisis.</p>	
25	AM-31-1	Miljöpartiet de gröna	<p>It means freedom from expensive imported energy and unaffordable rents. It means freedom from distorted elections and hybrid threats. Most simply, it means the freedom to live in a community where everyone looks out for each other.</p>	<p>From line 31 to 33:</p> <p>It means freedom from expensive imported <u>and unsustainable</u> energy and unaffordable rents. It means freedom from distorted elections and hybrid threats. Most simply <u>importantly</u>, it means the freedom to live in a community where everyone looks out for each other.</p>

Most simply, it means the freedom to live in a community where everyone looks out for each other.</p> <p><u>Europe's freedom and safety also depend on strong transatlantic cooperation. A free EU must deepen its collaboration with NATO, the United Kingdom and regional defence formats such as JEF to strengthen collective and human security. At the same time, Europe must build its own preparedness by developing a resilient defence industry and secure supply chains capable of withstanding long-term threats.</u></p>	
27	AM-39-1	PROGRE SIVIE	<p>need investment to reduce the cost of living and protect our climate. We need to safeguard shrinking democratic space and act with unity in an insecure world.</p>	<p>Insert from line 38 to 39:</p> <p>need investment to reduce the cost of living and protect our climate. We need to safeguard shrinking democratic space and act with unity in an insecure world.</p> <p><u>We recognise that regional cooperation, especially between Nordic, Baltic and other EU border states, is crucial to strengthening Europe's resilience. The EU's external borders with Russia and Belarus must be protected and reinforced to ensure the Union's collective security. Ending Russia's aggression is essential for ensuring a peaceful, democratic and green Europe in the long term.</u></p>	

28	AM-41-1	Die Grünen - Die Grüne Alternative	We need to make the European Green Deal the basis for our future shared prosperity, not roll back our environmental and social commitments.	Insert from line 40 to 41: We need to make the European Green Deal the basis for our future shared prosperity, not roll back our environmental and social commitments. <u>We are committed to keeping our European industry in Europe and supporting it through the green transition. We also call for strengthening the 'Buy European' approach to increase our strategic autonomy and secure shorter, more sustainable supply chains."</u>	We want this change because we need to preserve European industry and the jobs it provides, because European production is cleaner than in many other parts of the world, and because only a strong domestic industrial base can ensure that Europe remains — or becomes — independent in matters of security and the economy.
29	AM-41-2	Bündnis90/Die Grünen	We need to make the European Green Deal the basis for our future shared prosperity, not roll back our environmental and social commitments.	Insert from line 40 to 41: We need to make the European Green Deal the basis for our future shared prosperity, not roll back our environmental and social commitments. <u>We need a Europe united to defend itself against military and hybrid threats as well as a force for peace with civil means.</u>	
30	AM-43-1	Miljöpartiet de gröna	We need massive investment in the just transition: that means an ambitious next EU budget, joint borrowing and reformed fiscal rules.	Insert from line 42 to 43: We need massive investment in the just transition: that means an ambitious next EU budget, <u>including</u> joint borrowing and reformed fiscal rules.

36	AM-51-3	Die Grünen - Die Grüne Alternative	Ensure clean air, food, and water free from toxic pollutants	Insert after line 51: Implement stronger protection for European industry against imports from the United States and China that are manufactured without comparable environmental standards. Increase the implementation of a “Buy European” approach to ensure sustainable production, fair competition and the long-term resilience of our economy	We are calling for this adjustment to keep Europe’s industrial sector—and the employment it sustains—within Europe. European manufacturing also operates with higher environmental standards than many regions worldwide. Above all, a robust local industry is essential to prevent Europe from becoming economically or strategically dependent on other parts of the world.
37	AM-52-1	SF - Green Left	Guarantee access to quality public goods: from renewable energy to affordable and sustainable housing	From line 52 to 53: Guarantee Provide access to quality public goods necessities : from renewable energy to affordable and sustainable housing	the terms "guarantee" and "public goods" are hard to understand in the context

41	AM-17-1	GroenLinks	infrastructure	Insert after line 61 to 62: Strives for a meaningful and representative inclusion of young people, people of colour, women and other underrepresented groups in policy making.	
42	AM-64-1	PROGRESSIVE	space and the right to freedom of speech, assembly and expression	Insert after line 64: Ensures transparent, honest and corruption-free governance, with strict limits on hidden lobbying and full accountability in political decision-making	
43	AM-64-2	EGP Committee	space and the right to freedom of speech, assembly and expression	Insert after line 64: Counters the global anti-rights campaign that is engulfing our societies with deliberate and coordinated assaults on LGBTQ+ rights, women's reproductive rights and democratic values	

44	AM-22-1	GroenLinks	We are calling for a global Europe that:	<p>Insert after line 66 to 68:</p> <p><u>Preserves, promotes and enforces international law both within and outside its borders</u></p>	
45	AM-68-1	Green Party of England and Wales	<p>Stands for peace and justice in the Middle East and recognises the state of Palestine to secure a two-state solution guaranteeing the rights and security of both peoples</p>	<p>From line 68 to 70:</p> <p>Stands for peace and justice in the Middle East and recognises the state of Palestine to secure a two-state solution guaranteeing the rights and security of both peoples <u>achieving peace and justice in the Middle East, recognising the state of Palestine, the free exercise of all peoples' inalienable right to self-determination under international law, and the dismantling of all oppressive systems of apartheid and colonial occupation.</u></p>	<p>Self-determination is a right guaranteed to all peoples under Article 1(2) of the UN Charter and common Article 1 of the ICCPR and ICESCR. It is a distinct, foundational principle that must <i>precede</i> any discussions of sovereignty. Only from that basis can a legitimate political solution be pursued. Self-determination is not conditional on Israeli recognition of Palestinian sovereignty or achieved only by a two-state solution--especially since Israel's unlawful annexation continues to erode Palestinian land. Without the guarantee of self-determination, state sovereignty becomes illusory, and any state's security is undermined. That's why the EGP's position must be one grounded firmly in human rights and international law and support only a political vision that respects and upholds the equal and inalienable right of all peoples to self-determination. It is not the role of the EGP, the European Union, or European states to draw borders--especially when doing so would reinforce colonial partitions--or predetermine the political future of Israelis and Palestinians. Doing so would effectively undermine peoples' right to determine their political status themselves. As such, any proposals for one-state or two-state solutions must come from the constituents themselves, not from European states, European institutions, or the EGP.</p>
46	AM-68-2	Groen	<p>Stands for peace and justice in the Middle East and recognises the state of Palestine to secure a two-state solution guaranteeing the rights and</p>	<p>Insert from line 68 to 69:</p> <p>Stands for peace and justice in the Middle East and <u>unconditionally</u> recognises the state of Palestine to secure a two-state solution guaranteeing the rights and</p>	<p>Several European countries are delaying a recognition of Palestine, setting a list of conditions to be met. Being specific that the European Greens support an unconditional recognition, as several other European countries have done already, reinforces this statement as a necessary step towards peace and justice in the region.</p>

49	AM-30-1	Miljöpartiet de gröna	Supports Ukraine's struggle as a defence of freedom, peace and European security and its future in the EU	From line 74 to 75: Supports Ukraine's struggle as a defence of freedom, peace and European security and its future in within the EU	
50	AM-75-1	PROGRESSIVE	security and its future in the EU	Insert after line 75: Helps Ukraine in documenting and prosecuting the full scale of Russia's crimes, including war crimes, crimes against humanity, the abduction and forced transfer of Ukrainian children, and the deliberate destruction of nature amounting to ecocide Insists that Russia pays for the damage it has caused, including through the use of frozen Russian assets

Moreover, the EU is currently negotiating a trade agreement together with UAE who plays a role in supporting the Rapid Support Forces. Condemning UAE would show not only our support to the Sudanese population but also criticizing the EU institutions for planning such agreement despite the ongoing conflict

55	AM-36-1	Miljöpartiet de gröna	Promotes multilateralism, green industry, fair transition and environmental stewardship, particularly in Africa, Asia and Latin America, while preventing exploitation and resource plundering	Insert from line 80 to 82: Promotes multilateralism, green industry, fair transition and environmental stewardship, particularly in cooperation with actors in Africa, Asia and Latin America, while preventing exploitation and resource plundering	We should be an actor cooperating with and supporting actors on these continents that can themselves lead the work - we shouldn't be the ones leading the work.
