

Title: AM-7-6 to R3: Shifting Europe's Transport

Infrastructure Towards Sustainability and Justice:

The European Rail Network at the Centre

Tabled by: PROGRESĪVIE

Insert from line 6 to 7:

massively expanded. Lisbon has lost its direct train connection to Madrid and the broader European network.

In light of the current geopolitical context in Europe and lessons learned from the war in Ukraine, the rail network must be recognized as critical security infrastructure. It ensures the movement of military logistics, civilian evacuation and supply continuity during crises, and must be fully integrated into the EU's defense and mobility strategy. From the EU security perspective, it is very important to develop it and understand its importance.
