

Title: AM-60-1 to R3: Shifting Europe's Transport

Infrastructure Towards Sustainability and Justice:

The European Rail Network at the Centre

Tabled by: Groen

## **Demands**

## Insert in line 60:

- The immediate end to night flights
- A moratorium on flights within the European continent of 500 km or less by 2030, scaling up to 1000 km by 2050, when suitable rail alternatives would be already available

## **Explanation / Comment**

Along with massive investment and improvement of our international railway infrastructure, we must also discourage short-distance flights within the European continent to increase train ridership.
