

Title: AM-35-1 to R3: Shifting Europe's Transport

Infrastructure Towards Sustainability and Justice:

The European Rail Network at the Centre

Tabled by: EGP Committee

From line 34 to 37:

still tax-free and touristification rising. Road traffic represents as much as 20% of Europe's total emissions, but governments insist on expanding motorways, inducing further demand, while online shopping and last-mile logistics add even further pressure. Whereas rail is only 0,4% of the total transport emissions, but governments insist on expanding motorways, inducing further demand, while online shopping and last-mile logistics add even further pressure.
