

Magnus P. Wåhlin

Miljöpartiet de gröna

Sweden

Motivation letter, Conciliation Panel, 40th Congress of EGP.

I am a member of Miljöpartiet de gröna (MP) in Sweden and have been a member of our national board since 2019. I have also since 2019 been a delegate to the EGP representing MP. After six years attending congresses, I have got some experience on EGP matters, organization and working methods. I find that it would be interesting to take the next step in my commitment in the EGP.

I believe that my professional background makes me suitable for the work in the Conciliation Panel (CP). I have been working for many years in international contexts in Europe, Africa and Central America. As a minister in the Church of Sweden I have been working with leadership training and group development and find it very interesting to see colleagues, member groups and other groups that collaborate develop together. For that development to be possible the principle of “hear and heard” as is pointed out in the EGP Rule Book is essential. I have used that method in different capacities.

I think that I am a person with integrity and independence and that I have the ability to understand different driving forces in difficult conflicts and problems.

For EGP, with a growing number of members (which is wonderful!), it is essential that we are in agreement with joint agreements such as the Rule Book and the Charter of the European Green party.

I would be very happy if the congress would like to consider me as a member of the Conciliation Panel.
