

10/30/2025

Dear Green Colleagues,

I have been an active member of the Finance Advisory Board since 2023 when I was elected by the membership at the Vienna Congress. I was the General Secretary of the Irish Greens/Comhaontas Glas from 2020 until the change in government earlier this year. I may have also met you if attended the recent EGP Congress in Dublin. I am asking for your nomination and vote as I run for re-election for a second term on the Finance Advisory Board (FAB).

I originally put my name forward for FAB in 2023 because I believe resourcing is essential for our collective fight for climate and social justice; it's important that there's female leadership on all Green committees; and I have the qualifications and expertise to make a positive difference. Aside from my General Secretary role with the Irish Greens, I have over 10 years experience at CEO level holding responsibility for multi-million budgets with non/profit organisations; led financial reporting with international funders; and have dedicated my professional career to social and climate justice initiatives. I also hold qualifications in finance and the environment, including an MBA and PRINCE2.

Now more than ever, Green leadership is essential for making the world a better and safer place for everyone as we face head on together into alarming changes in the geopolitical order, the devastating effects of continued wars, escalating climate chaos, and unprecedented transformations to the global economy.

Strategic use of all resources will be key to the Green's fight and I am asking for your Party's support to continue in my role on FAB. I am passionate about our mission and will bring continuity to FAB's continued work to support the European Green members and leadership as the only existing committee member running for re-election.

Thank you for your consideration. Please also feel free to contact me if you have any questions or concerns and I hope to meet you (again) in Lisbon.

Sincerely,

Maura Rose McMahon

Ireland
