Dear Green Colleagues,

I am reaching out to you to seek your support for my candidacy for re-election to the EGP Conciliation Panel. I have served on the Panel for the past three years since the Vienna Congress and look forward to continuing that work in the coming term.

I have been deeply involved in the Irish and European Green Party for 20 years now, serving as chair of the Irish Young Greens, International officer and EGP Delegate for the past decade and having worked in Brussels with both the Greens/EFA group in the office of Grace O'Sullivan MEP, and the EGP itself. I have an MA in European Politics and a BA in History, and am currently working as the Green Party manager in our Dublin Headquarters, having until recently served as the Parliamentary Political Manager. I have maintained a deep and abiding belief and interest in the European Green Movement and the work of the EGP since my first engagement with FYEG.

During the term of the previous Conciliation Panel, I worked closely with my colleagues Frieda, Tetiana, Imane and Ursula in our assessment of the SMS Zeleni dispute with the EGP committee, and completed that work in a fair and efficient manner in advance of the Dublin Congress this year.

I believe I have the organisational abilities, judgement, experience and belief in the cause of European Green unity to continue to fulfil the role dutifully for another term, and look forward to your support.

Sincerely,

Ed Davitt

Curriculum Vitae [PDF]

Motivation letter, Conciliation Panel, 40th Congress of EGP.

I am a member of Miljöpartiet de gröna (MP) in Sweden and have been a member of our national board since 2019. I have also since 2019 been a delegate to the EGP representing MP. After six years attending congresses, I have got some experience on EGP matters, organization and working methods. I find that it would be interesting to take the next step in my commitment in the EGP.

I believe that my professional background makes me suitable for the work in the Conciliation Panel (CP). I have been working for many years in international contexts in Europe, Africa and Central America. As a minister in the Church of Sweden I have been working with leadership training and group development and find it very interesting to see colleagues, member groups and other groups that collaborate develop together. For that development to be possible the principle of “hear and heard” as is pointed out in the EGP Rule Book is essential. I have used that method in different capacities.

I think that I am a person with integrity and independence and that I have the ability to understand different driving forces in difficult conflicts and problems.

For EGP, with a growing number of members (which is wonderful!), it is essential that we are in agreement with joint agreements such as the Rule Book and the Charter of the European Green party.

I would be very happy if the congress would like to consider me as a member of the Conciliation Panel.
