31st Council
10-13 June 2020
Online
by the European Greens

Title:	**AM-59-1 to Res 2.: A budget for a sovereign Europe**
Tabled by:	Ecolo

Demands

Insert from line 58 to 60:

- The introduction of new own resources, including fair taxation of digital companies and cryptocurrencies as well as taxes on windfall profits, and the allocation of part of the Emissions Trading System (ETS) and Carbon Border Adjustment Mechanism

Explanation / Comment

We have defended these measures at national level but it seems very relevant as well to bring it up to the EU level especially in regard that the European Council has asked the European Commission to explore this question for energy companies (ECOFIN meeting on October 9). The Commission already stated that they would help and assist national goverments to set up such a measure.
