Title:	**AM-69-1 to Res 2.: A budget for a sovereign Europe**
Tabled by:	Groen

Demands

Insert from line 68 to 69:

- creating European added value and transnational infrastructure rather than strengthening national industries. The ECF and other state aid measurees need to ensure that the wealthiest Member States are not favoured over other Member States without the budget to support their own industry.

Explanation / Comment

Solidarity among and a level playing field between Member States is crucial. Not all member States have the same budget to strengthen their national industries. Effective state aid policy should thus continue to ensure that richer Member States cannot use subsidies to outcompete the industries of other Member States.
