Title:	**AM-68-1 to Res 2.: A budget for a sovereign Europe**
Tabled by:	Bündnis90/Die Grünen

Demands

From line 67 to 69:

- and EU Member States should ensure that the ECF resources are aimed at creating European added value ~~and~~, in particular through transnational infrastructure and the clean industrial transition, rather than ~~strengthening~~fuelling national ~~industries~~subsidy races.

Explanation / Comment

Specifies the European added value the ECF should deliver without narrowing its broad scope. The problem is not industry located in Member States but competing national subsidies.
