Title:	**AM-72-1 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Ecolo

Demands

From line 71 to 73:

• Support for climate-resilient livelihoods, such as agriculture, forestry, tourism, reinforcing ~~agricultural~~agroecological methods and traditional knowledge of shared land use

Explanation / Comment

Agroecological methods give the opportunity to create a better system for the soil that results in a greater water retention and decreases risk of agricultural loses and fire.
