Title:	**AM-50-1 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Federation of Young European Greens

Insert from line 49 to 50:

water conservation and sustainable irrigation; ensure fair water allocation and prioritise essential needs and ecosystems. Drinking water must not be treated as a commodity.

Explanation / Comment

Drinking water is mentioned in the demands but not in earlier texts. As sweet water reseverves are depleting and droughts becoming more common, we must ensure that drinking water does not become a product that is only reserved for the richest,
