Title:	**AM-59-1 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Groen

Demands

Insert from line 58 to 59:

• Binding EU adaptation targets and infrastructure stress tests against severe scenarios, building on the EU's Climate Adaptation Strategy and Framework for Climate Resilience

Explanation / Comment

It was unclear to us which adaptation targets the resolution refers to. Since we already have several frameworks in the EU, it would be a good thing to build on them and make them more concrete whenever needed by policymakers.
