31st Council
10-13 June 2020
Online
by the European Greens

Title:	**AM-64-2 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Bündnis90/Die Grünen

Demands

In line 64:

• ~~Affordable insurance~~ and widely available insurance against natural hazards, with a mandatory offer by insurers, public risk pooling or reinsurance for risks the private market cannot cover, premiums that reward~~s~~ risk reduction, and safeguards so that low-income households and tenants are not priced out.

Explanation / Comment

The draft leaves open how affordable insurance is to be ensured. A mandatory offer by insurers, backed by public risk pooling or reinsurance, makes cover widely available, while social safeguards keep low-income households and tenants from being priced out.
