Title:	**AM-65-3 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Les Écologistes - Europe Ecologie Les Verts

Demands

Insert from line 65 to 66:

• Huge investment in climate-resilient public infrastructure, and a dedicated EU funding plan for deep housing renovation to eradicate thermal vulnerabilities, including cooling systems in buildings and schools, flood protection, healthcare and water systems

Explanation / Comment

The text identifies energy and housing poverty as major vulnerabilities but lacks a concrete demand. We need to explicitly call for a massive, coordinated EU funding plan for housing renovation to protect the poorest from extreme temperatures.
