by the European Greens

Title:	**AM-75-2 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Les Écologistes - Europe Ecologie Les Verts

Demands

Insert from line 74 to 75:

• Solidarity-based adaptation finance prioritising the most exposed communities and closing the international finance gap

- Mandatory inclusion of binding social justice criteria in all EU adaptation funding, paired with a social veto right for affected communities to prevent green gentrification and unequal protection.

Explanation / Comment

The preamble states that adaptation must be shaped by affected communities (lines 30-32), but this is missing from the Demands. This amendment operationalizes this principle by giving vulnerable populations actual leverage to ensure adaptation policies do not leave them behind.
